Dear Martin:

I just want to thank you and your staff for your work on our behalf. Through your knowledge and assistance, we not only received a significant refund from NYSIF but also an almost 40% reduction in our experience mod rating along with a corresponding reduction in our premium. All with very little effort on our part! As promised, your highly-professional staff did most of the work and we reaped the benefits.

Although I was a little skeptical when you first contacted us, the process was easy and the results speak for themselves. I would highly recommend your services to any company.

With much appreciation,

Donna M. Travers
