Dear Mr. Silver,

I wanted to thank you for the work your company performed on our behalf. Recently I received our mod revision check from the State Fund. With little effort by me you were able to revise our experience modification and I actually received money back from The State Insurance Fund.

Your invoice is one I will gladly pay. Compensation Consulting Services is one company that does what they say they will. Please feel free to have any potential clients give me a call to confirm your good work. Thank you.

Respectfully,
