Dear Martin,

Please accept my thanks & appreciation for a job well done. You & your staff followed through on what we were initially told. You secured a refund from the State Insurance Fund for us in a timely & professional fashion. You were true to your word that it did not involve much time or effort on my part.

The State Insurance Fund bills are many times complicated and not very easy to understand. Your offices are obviously very well versed in this area. It is through your expertise that we were able to recoup monies that was rightfully ours that would have otherwise been lost.

The service you provide is one that is well worthwhile. Please feel free to use us as a reference.

Sincerely,

  
Maryann Parmley  
President
