Mr. Martin Silver

To say that I am happy with your services would be an understatement! Thank you for taking the time to reach out to me. Your company was extremely successful in recouping **VERY SIGNIFICANT** funds that we overpaid to NYSIF on the workers comp. for both our policies. Although I believed you might find some errors that would yield a refund, I honestly did not think that the numbers would be so great. Your staff was very courteous & professional and a pleasure to deal with. Even more impressive, was the fact that you didn't require time on our end. I would be more than happy to recommend your services to my industry or any other that would like to see overpaid monies lost back to where they belong.

Sincerely,
