Dear Martin,

I wanted to take the opportunity to thank you for reaching out to me. Without your intervention, we would have never been aware that there is money out there that belongs to us. You were successful in having our experience modification factor reduced as a result of substantial over reserves. Our premiums were calculated based on these inflated reserves and we were over paying for years. This is something we would have never known about and cannot have been done on our own. We received a significant refund from NYSIF which was as a result of your doing.

It was truly a pleasure working with you and your team!
